NC Guided Pathways to Success (NC GPS) Strategic Plan 2018-2020

Based on the AACC Guided Pathways initiative, the Center will launch a three-part implementation plan to assist colleges with adopting strategies that support greater student learning and success.

1. **NC GPS Cohort I** (a selection of colleges that apply) will receive coaching support, professional development, and technical assistance with institutes focused on the NC GPS Essential Practices.
2. Technical assistance **webinars and regional workshops** will be provided for all 58 colleges.
3. Upon request, professional development will also be provided during regularly-scheduled **NCCCS association conferences and meetings**.

Pending approval by the Center’s Advisory Board, the plan will launch in late September 2017.

NC Advising Redesign Project

The Center will engage in a year-long advising and student support redesign project to produce a toolkit of best practices, models, and professional development.
