An Inclusive Policy Approach for Guided Pathways

INSTITUTIONS

Cross-cutting policies that create conditions for implementing, scaling, and sustaining what works for underserved populations. These policies shape institutional structures.

- Political Leadership and Commitment
- Data Systems Capacity and Use
- Braided Funding
- Capacity Building and Continuous Improvement

STUDENT EXPERIENCE

Policies that directly address the distinctive needs of underserved populations across the student experience of guided pathways.

- Strong On-ramps
- Ongoing Intensive Student Supports
- Comprehensive Financial Aid
- Robust Career Pathways
Policy Levers to Improve Access and Success for Underserved Populations

Eight Recommendations

#1 POLITICAL LEADERSHIP AND COMMITMENT
Make improving postsecondary outcomes for underrepresented populations a state priority.

#2 DATA SYSTEMS CAPACITY AND USE
Examine enrollment, retention, and completion data for immigrants, justice-involved individuals, opportunity youth, and other underserved populations to identify access and achievement gaps and set improvement targets.

#3 STRONG ON-RAMPS
Encourage or require the development of stronger on-ramps into postsecondary education from the institutions, organizations, and systems that work with underserved populations.

#4 ONGOING INTENSIVE STUDENT SUPPORTS
Encourage or require ongoing, intensive supports, including transition counseling, career advising, academic advising, and non-academic support designed to address the unique needs of underserved populations.

#5 COMPREHENSIVE FINANCIAL AID
Make postsecondary education more affordable for underserved populations by ensuring access to in-state tuition, financial aid, and scholarships, and emergency funds.

#6 ROBUST CAREER PATHWAYS
Create robust career pathways with multiple exit and entry points, as well as flexible learning options that help underserved populations balance work obligations and educational goals.

#7 BRAIDED FUNDING
Promote and facilitate the use of braided funding to increase the resources available for underserved populations.

#8 CAPACITY BUILDING AND CONTINUOUS IMPROVEMENT
Build the capacity of colleges and partner organizations to test and scale innovations for improving postsecondary outcomes for underserved populations.
